

FORAGE ESTABLISHMENT, FORAGE, FORAGE SEED, and PASTURE

If any of the following situations apply to you, refer to the corresponding example on the reverse to complete your Seeded Acreage Report (SAR).

Example 1: Forage Seeded in 2024

All acres of spring seeded perennial ryegrass, tame forages, forage seed, and pasture that were seeded in 2024 have been pre-printed in the crop column of your 2025 SAR. Please review these fields and make any changes to acres, crop type, or intended use (i.e. forage, forage seed, or pasture) for 2025.

For forage crops, please indicate the forage type based on the following composition of stand:

Alfalfa – 75% or more alfalfa

Grass – 75% or more grass

Coarse Hay – 25% or more native grass

Alfalfa Grass – 25% to less than 75% alfalfa

Sweet Clover – 75% or more sweet clover

For forage seed, please indicate whether it is pedigreed alfalfa seed, common alfalfa seed, tall fescue seed, perennial ryegrass seed, pedigreed timothy seed, or common timothy seed.

If the establishment field has been destroyed, please draw a line through the crop and mark it “destroyed”. If only a portion of the acres have been destroyed, please record the acres that remain as per the above instructions.

Example 2: Existing Forage and/or Forage Seed Fields

If you were insured with MASC last year, your forage, forage seed, and pasture acres will be printed on your SAR based on last year’s information.

Please review this information to ensure it is correct for the 2025 crop year. If the intended use or composition of stand has changed, please indicate the changes. If the field has been destroyed or if you are no longer farming the field, please draw a line through it and mark it as “destroyed” or “no longer farming”. If you are farming newly acquired fields that are not listed on your SAR, please record the legal description, crop type, variety, acres, and establishment year.

New forage insureds, plus a number of producers that were insured in 2024 may have their forage and forage seed acres inspected by MASC this spring. The information from the inspection forms (as provided by the adjustor) should be transferred to your SAR before you return it to MASC.

For forage seed producers, pedigreed timothy seed, and pedigreed alfalfa seed must be a variety that is certified as pedigreed in Canada and crop certificates must be made available if requested. All common alfalfa seed varieties are insurable provided the ground cover is greater than 75 per cent. Common timothy seed is not insurable.

Example 3: Pasture Insurance

If you selected pasture as an insurable crop in conjunction with Select Hay Insurance or Basic Hay Insurance, you are required to declare your livestock numbers by June 30. Please record all of your livestock by category in the pre-printed section on the last page of your SAR.

2025 SEEDED ACREAGE REPORT (SAR)

Filing Deadline - June 30, 2025

Policy 123456 / FARMER JOE

Service Centre: Swan River
Phone: 1-833-206-0476 Fax: 1-833-478-1315
Email: swanriver@masc.mb.ca

This report must be filed with MASC by June 30, 2025, unless you have an Excess Moisture Insurance claim or have aerial seeded crops, in which case your SAR must be filed by June 22. If your SAR is not returned by June 30, 2025, then: i) a **\$500** late filing fee may be charged, ii) all crops will be inspected for insurability; and iii) the cost of the inspection will be charged to your account. **This report must be signed and returned or completed online whether or not acres have been seeded.**

Did you seed any fields by plane or helicopter? Yes ☐ No ☒

Did you seed a forage crop (for seed or feed) last fall or this spring? Yes ☒ No ☐

Will you seed any greenfeed after filing this report? Yes ☒ No ☐

Legal Description	Unit	Soil Zone	Crop Share	Previous Year's Declared Acres	Summerfallow Acres	Acres Too Wet to Seed	Crop/Forage/Unseeded	Variety	Seeding Date/Establishment Year	Seeded Acres/Plant Count
Example 1: Forage seeded in 2025										
NE 99-99-99 W	1	F08	100%	105			Alfalfa/Grass Mixture	No Var (Alf Brm Tim)	June 10, 2025	55
Example 2: Existing forage and/or forage seed fields										
SW 99-99-99 W	1	F08	100%	68			Pasture (Tame/Perennial)	No Var (Unknown Type)		34
							Grasses Destroyed	No Var	2012	34

Pasture Insurance

Example 3: Pasture Insurance

Livestock	Number of Animals
Cow/Calf Pairs and Bred Heifers (beef, dairy, bison)	107
Bulls (beef, dairy, bison)	3
Feeders and Yearling Calves (beef, dairy, bison)	12
Horses and Mules	2
Donkeys	

Livestock	Number of Animals
Elk (registered for game production)	
Llamas	
Sheep and Goats	23
Alpacas	
Other	

DECLARATION:I/We hereby certify that the information given in this Seeded Acreage Report is a complete and correct statement of: (i) the total 2025 acres, whether insured or not, of each crop seeded, as well as forages, forage seed, and summerfallow; (ii) the acreage indicated as "Acres Too Wet To Seed" was available for seeding prior to June 20, 2025 and is normally used for that purpose, but was too wet to seed; and (iii) for pasture, the total number of pastured livestock. I/We understand that this information may be used to calculate an Excess Moisture Insurance claim and that any overpayment arising from such claim will be repayable on demand. I/We acknowledge that in the event the Corporation elects to process my/our claim for indemnity on the basis of this declaration, an appeal of indemnity is not available. I/We further understand that any misrepresentation, misstatement, or non-disclosure of required information is contrary to the terms of my/our AgriInsurance Contract and may result in serious consequences, including but not limited to, the repayment or forfeiture of indemnities and/or the termination of my/our participation in the AgriInsurance program. The information in this form is collected under the authority of The Manitoba Agricultural Services Corporation Act and will be used to administer your AgriInsurance and for research purposes. If you have any questions about the collection of such information, contact your MASC Insurance Specialist. Reminder: If the Insured is a corporation, promptly notify MASC of any changes in shares, shareholders, directors, officers, or agents.
